

**5 Steps to Take Apart an Olympic Kiln Equipped with Counter Weight Lid System
Once the 5 Steps Have Been Completed,
Kiln Will Come Apart in Sections By Lifting Each Ring Straight Up**

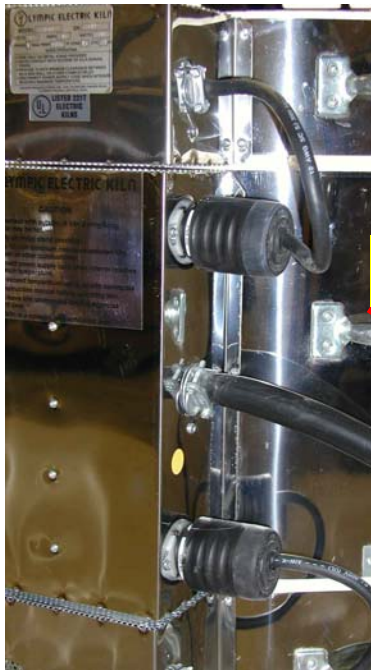

STEP 1 - Undo Bolts on Back of Kiln Firing Chamber

STEP 5 - Detach lid brace arm

STEP 2 - Twist and unlock inter-box plugs from receptacles

STEP 4 - Raise lid wide open and detach spring, slowly lower lid to closed position

STEP 3 - Remove center screw with a Phillips screwdriver from top ring locks on either side of the top ring
