**DECORATIVE GLAZE INSTRUCTIONS:** Stir well. Apply 3 even coats to 04-05 bisque. Fire cone 05-06. For streaking problems, dampen bisque before applying glaze and flow on even coats. Safe for food and drink surfaces when properly applied and fired to cone 06 or hotter.

**Note:** Photographic reproductions differ from actual color. Firing conditions and results vary. Test fire all glazes before using in production.  
**Caution:** None of these products should be taken internally. Contain ingredients not suitable for ingestion.

**UNDERGLAZE INSTRUCTIONS:** Apply 2-3 coats. Fire cone 04. For gloss look, apply 2-3 coats of clear glaze before firing. Food safe dependent upon clear glaze applied.

**Note:** Photographic reproductions differ from actual color. Firing conditions and results vary. Test fire all glazes before using in production.  
**Caution:** None of these products should be taken internally. Contain ingredients not suitable for ingestion.

## COLORSTROKE

## TERRAZZO

## BEAD & CRACKLE

## ART SPECIALTY

**COLORSTROKE INSTRUCTIONS:** Leadless Glaze. Brush one stroke onto bisque & dry. Add 2 coats of clear glaze. Fire cone 04-05. Clarity is better underneath clear glaze.

**TERRAZZO INSTRUCTIONS:** Brush over gloss glaze. 2-3 coats will make a larger pattern, 1-2 coats will make a smaller pattern. Fire cone 04-05. Terrazzo is not recommended on inside surfaces (cups/plates) because surface damage may occur.

**BEAD & CRACKLE INSTRUCTIONS:** Apply 2-3 coats only to bisque or underglaze. Fire cone 04-05. **Do not use for food or drink surfaces.**

**ART SPECIALTY INSTRUCTIONS:** AR1 Gold Bronze – Stir well. Apply 4 even coats to 04-05 bisque. Fire AR1 to cone 02 or higher. **Caution: Contains lead. Do not use for food & drink surfaces.** AR2 Shimmering Silver – Stir well. Apply 2 even coats to 04-05 bisque. Fire cone 05-06. **For food & drink surfaces: When properly fired per instructions, this glaze complies with FDA's safety requirements concerning lead and cadmium release.** AR3 Autumn Rust – Stir well. Apply 3 coats to 05 bisque. This glaze runs in firing so stagger coats (less at bottom). Fire AR3 cone 05. **Caution: Contains lead. Do not use for food & drink surfaces.**

**Note: Photographic reproductions differ from actual color. Firing conditions and results vary. Test fire all glazes before using in production.**

**Caution: None of these products should be taken internally. Contain ingredients not suitable for ingestion.**
